Regardless of the cause, the Airport's potential liability shall be limited to direct losses only and shall exclude non-material losses whether consequential or non-consequential, up to the contractual limits of the insurance policies taken out.

- Ground handling operations are governed by the provisions in the IATA SGHA 2008/2013 standard contract, particularly in article 8 on Liability and Indemnity.
- Aircraft or motorised land vehicles parked at the Airport remain under the full responsibility of their owner or possessor, with the airport operator in no way accepting the responsibility of looking after such aircraft or vehicles.
- Occupancy of public airport territory is dependent on the issuance by the Airport of a permit for temporary occupancy.

2. Invoice payment

For all companies and individuals, the charges and fees for the provision of services are, in principle, to be paid in cash upon presentation of the bill and issuance of a receipt.

However, a request to open a Customer account can be made to the airport manager.

The opening of an account may be considered in cases where:

- The billed services are of a permanent nature,
- The invoice amounts warrant the holding of an account,
- The operator has a sufficient guarantee for the payment of invoices.

Invoicing costs: When an invoice is created, invoicing costs amounting to €7.62 excl. tax are applied to cover the administrative costs of drafting and sending the invoice.

Surcharge for failure to pay in cash: if a company or individual without a customer account fails to pay the charges and fees for the provision of services in cash, a fixed sum of €20 excl. tax will be applied in addition to the abovementioned invoicing costs.

4. Payment deadlines

Our invoices are payable within 30 days at most from the date the invoice was issued without discount.

5. Late payment

In the event of late payment, the payer owes the Joint Association a late fee as well as a fee for debt collection costs.

The interest rate for late fees is equal to 3 times the legal interest rate. The fee for collection costs is set at 40 euros.

6. Ground holding

Regardless of the penalties incurred for late payment and of the fee for debt collection costs, the act of passing an unpaid aeronautical invoice to the claims department triggers the implementation of the procedure as provided for by Article R.224-4 of the French Civil Aviation Code below:

Fees are due for the provision of personnel and/or the use of the facilities, installations, buildings and tools that they cover the cost of.

In the event of the non-payment of fees due by an aircraft operator, the airport operator is permitted to call for the relevant authority of air traffic at the airport to hold the aircraft until the disputed amount has been received".

7. Application

These tariffs are applicable from the First of April, Two Thousand and Seventeen.

From this date, all conflicting provisions which may have been contained within texts previously in force shall become null and void.
