V. SPECIAL CONDITIONS

1. Liability

Any individual or legal entity operating at the Airport (whether or not they have a contractual relationship with the Airport) is responsible for any damages of any kind caused either by themselves, their employees, or any person for whom they are responsible, as well as by their co-contractors or subcontractors operating at the Airport. This responsibility extends to damages suffered by themselves, third parties, and the Airport (including its employees).

In the event of damages suffered by a user, any potential liability of the Airport, regardless of the cause, is limited to direct damages only, excluding consequential and non-consequential intangible damages, and within the contractual limits of the Civil Liability insurance policies taken out by the Airport.

For ground handling operations, and in accordance with the IATA SGHA contract (notably Article 8 regarding liability and indemnity), the Airport is only liable, in the event of fault or negligence, for direct material damages to the aircraft, and only up to the amount of the standard deductible provided for in the Aircraft Hull Insurance policies, whether taken out by the aircraft owner or operator or not. In any case, this amount shall not exceed 1.5 million USD for any type of aircraft. No limitation of liability shall apply in the event of intentional misconduct, gross negligence, or willful misconduct by the Airport.

For aircraft or motorized ground vehicles parked at the Airport, they remain under the full responsibility of their owner or holder, as the Airport does not assume the role of custodian.

Whenever a domain occupancy agreement is concluded with the user for the occupation of the airport's public domain, the liability provisions outlined in that agreement shall apply.

2. Waiver of recourse

With respect to the damages mentioned in paragraphs 1 and 2, any individual or legal entity operating at the Airport (whether or not they have a contractual relationship with the Airport), as well as their insurers:

- **Waive any recourse** against the Airport and its insurers, except in the event of gross negligence or intentional misconduct by the Airport, which must be proven by the claimant. Gross negligence is defined as a fault so serious that it demonstrates the author's inability to fulfill their obligation.
- **Indemnify and hold harmless** the Airport, except in cases of gross negligence or intentional misconduct, and its insurers against any claims of any kind brought by third parties against them for the aforementioned damages.
- **Indemnify and hold harmless** the Airport, except in cases of gross negligence or intentional misconduct, and its insurers against all costs they may incur in defending their interests in current or future litigation (including legal and representation fees, expert fees, and any non-recoverable expenses).

3. Insurance

Any individual or legal entity operating at the Airport (whether or not they have a contractual relationship with the Airport) must subscribe to all necessary insurance policies to cover the

risks of any kind that they may incur or cause as a result of their use of the Airport. This includes, in particular:

- A **property damage insurance policy** covering the user's own assets.
- A **civil liability insurance policy** covering the risks of damages to third parties, with sufficient coverage limits considering the inherent risks of an airport environment.

The insurance policies subscribed to by any individual or legal entity operating at the Airport must include provisions reflecting the **waiver of recourse** as outlined in **Article IV.2** above.

Whenever a **domain occupancy agreement** is concluded with the user for the occupation of the airport's public domain, the insurance provisions of that agreement shall apply.

4. Required Documents for Aircraft Operations

In the month preceding the aircraft's arrival for scheduled airlines or before invoicing for general and business aviation, the following documents must be submitted to the airport:

- Certificate of Airworthiness indicating weight specifications.
- Noise Certificate specifying the maximum takeoff weight, engine details, and associated noise measurements.
- Air Operator Certificate (AOC) listing the relevant fleet to determine the type of commercial flight operation.

If applicable, for French airlines, a company-issued certificate confirming that the majority of their traffic is international (for VAT exemption purposes).

- The VAT number of the airline/operator.
- For EU-based companies, the intra-community VAT number.

If these documents are not provided, invoices will be issued inclusive of VAT, and no retroactive credit notes will be granted.

Non-certified declarative lists from the aviation authority of the country of origin will not be accepted.

The documents should be sent to:

Aéroport Biarritz-Pays Basque - 7, Esplanade de l'Europe - 64600 Anglet - France
Email : executiveaviation@biarritz.aeroport.fr
Tél : +33 (0) 5 59 43 83 49

5. Invoices payment

For all companies and individuals, the charges and fees for the provision of services are, in principle, to be paid in cash upon presentation of the bill and issuance of a receipt.

However, a request to open a Customer account can be made to the airport manager.

The opening of an account may be considered in cases where:

- The billed services are of a permanent nature,
- The invoice amounts warrant the holding of an account,
- The operator has a sufficient guarantee for the payment of invoices.

Invoicing costs: When an invoice is created, invoicing costs amounting to €7,62 excl. tax are applied to cover the administrative costs of drafting and sending the invoice.

Surcharge for failure to pay in cash: if a company or individual without a customer account fails to pay the charges and fees for the provision of services in cash, a fixed sum of €20 excl. tax will be applied in addition to the abovementioned invoicing costs.

6. Methods of payment

Payment may be made by the following methods:

- By cash.

Important: Please specify the information written on the invoice
(Customer No / date / invoice No.)

7. Payment deadlines

Our invoices are payable within 30 days at most from the date the invoice was issued without discount.

8. Late payment

In the event of late payment, the payer owes the Joint Association a late fee as well as a fee for debt collection costs.

The interest rate for late fees is equal to 3 times the legal interest rate. The fee for collection costs is set at 40 euros.

9. Ground holding

Regardless of the penalties incurred for late payment and of the fee for debt collection costs, the act of passing an unpaid aeronautical invoice to the claims department triggers the implementation of the procedure as provided for by Article R.224-4 of the French Civil Aviation Code below:

Fees are due for the provision of personnel and/or the use of the facilities, installations, buildings and tools that they cover the cost of.

In the event of the non-payment of fees due by an aircraft operator, the airport operator is permitted to call for the relevant authority of air traffic at the airport to hold the aircraft until the disputed amount has been received".

10. Application

These tariffs are applicable from the First of April 2025.

From this date, all conflicting provisions which may have been contained within texts previously in force shall become null and void.
